

ARaucaria Token (ARAUC) — Whitepaper (Simplified)

Mint Address: APzZG3Pk5v81xRJLQMJ8b1oNnzeoMC27UFFaVjPVjcBS

1. Executive summary

ARaucaria Token (ARAUC) is a community-driven utility token on the Solana blockchain inspired by the Araucária tree — a symbol of longevity, resilience and sustainable growth. ARAUC aims to power simple on-chain utilities, fund community initiatives, and provide a tradable unit of value for projects that promote environmental awareness and financial education.

2. Vision & mission

Vision: Build a modest yet resilient ecosystem around a community token that supports environmental projects, educational content and practical DeFi experimentation on Solana.

Mission: Create transparent token mechanics, accessible documentation, and easy entry points so supporters can participate in governance and ecosystem growth.

3. Core utilities

- Community grants & micro-funding
- Access & rewards
- Liquidity & trading
- On-chain experimentation

4. Tokenomics (simplified)

Total supply: 1,000,000,000 ARAUC

Suggested allocation:

- Community & Ecosystem: 50%
- Team & Advisors: 15%
- Liquidity: 15%
- Treasury: 15%
- Marketing: 5%

5. Governance & transparency

Initial governance is centralized but will gradually expand to token-holder voting.

6. Roadmap

Phase 0 — Launch

Phase 1 — Liquidity & Community

Phase 2 — Utilities

Phase 3 — Growth

7. Adding liquidity

Acquire ARAUC, pair with SOL or stablecoin, and deposit on a DEX like Orca.

8. Legal notice

This is an experimental token and not financial or investment advice.
